conversion software that helps you create PDF documents using PowerPoint presentations.. The app works with Microsoft PowerPoint 97-2003 and 2007 files, which means it supports PPT, PPTX and PPTM formats.. Other than that, Free PowerPoint/PPT to Pdf Converter completes the job without stressing up the CPU and RAM, while working just fine on most Windows versions on the market.

The interface is the fifth element that makes the program so easy to use even by rookies, as it groups all configuration options right in the main window, with no other configuration screen to make the whole process a breeze.. While adding new files to the conversion list is quite easy, it's a bit more important to have a look at the "PDF Option" tab at the bottom of the main window.
